SUBJECT: New GS-11 in [REDACTED]

25X1A

I checked with [REDACTED] on the status of FE's request for a new GS-11 to be established in [REDACTED]. Hugh advises that FE must identify a ceiling slot to be abolished to accommodate the establishment of the new slot and they plan to meet with PMCD on 27 or 28 December 1972 on this matter. I will follow up with PMCD next week.

25X1A

Suggest we defer action until such time as we get official word that the slot is established. Then we can further discuss the assignment with [REDACTED] who seems to be our candidate for the GS-9 which is being vacated by [REDACTED] who will move into the new GS-11. (Al is on TDY until 3 January 1973.)
